## *Mother of Pearl Table Ware*

---

*Unique yet classy, Nestaire's Mother of Pearl Collection is the ultimate choice in traditional Table Ware.*

*Each piece of this collection is very detailed and crafted by hands by skilled artisans. Since each piece is made by hand and individually crafted, this makes them unique as there will not be another piece that will be identical. We work with best craftsmen even in remote locations of India to bring you this fine art and thousands of years of tradition.*

*Our mother of pearl tableware is not only beautiful, classy but is also a healthy natural choice over other tableware made from Plastics or contain toxic chemicals.*

*Since the tableware is lined with a layer of mother of pearl, each fragment reflects a different light and create a collage of colours when seen in natural daylight or any other bright setting. This gives the tableware an extra ordinary finish. This tableware is perfect to create one of a kind opulent setting to impress even the most discerning.*
